SERVICE BULLETIN

Enhancement of Permissible Speed for CTLS

SB-LTUL-CTLS-02

1 Planning Information

1.1 Affected Aircraft

Type: CT
Model: CTLS
Serial Number: All serial numbers
Applicable Countries: All Countries where LTF-UL standards are in effect

1.2 Concurrent Documents

None

1.3 Reason

Re- issue of existing document in order to implement it to the new Service document numbering system

1.4 Subject

All information see paragraph 3

1.5 Compliance

All information see paragraph 3

1.6 Personnel Qualifications

All information see paragraph 3

1.7 Approval

All information see paragraph 3

1.8 Weight and Center of Gravity

All information see paragraph 3

1.9 References

All information see paragraph 3
1.10 Superseded Documents
Technical Advice (Service Bulletin) CTLS – TA 08-01

1.11 Contact Details
For further information or to report any Safety of Flight or Service Difficulty issues contact your Distributor responsible for your country.

Specific contact in USA:
Flight Design USA
P.O. Box 325 South Woodstock, CT 06267
Tel: 860 963 7272 / Fax: 860 963 7152
Web: www.flightdesignUSA.com
E-Mail: airworthiness@flightdesignUSA.com

For all other countries and in cases where the local distributor is not known or available contact Flight Design GmbH directly.

2 Resources
2.1 Materials
All information see paragraph 3

2.2 Manpower
All information see paragraph 3

2.3 Cost
All information see paragraph 3

3 Instructions
The following is the 1:1 copy of the existing document following the old numbering system.
1 Planning Information

1.1 Affected Types
Type: CT
Model: CTLS
Serial Number: 07-11-12; 07-11-14; 07-11-25; 07-12-01; 07-12-02; 07-12-17;
07-12-18; 08-01-20; 08-01-21; 08-01-22; 08-01-23

1.2 Further Applicable Documents
German Type Datasheet DAeC 61151.4 Revision 2

1.3 Reason
Enhancement of the certified speed range for already delivered aircrafts of the CTLS model, following completion of the flutter tests.

1.4 Subject
Exchange of affected aircraft documentation to the newest variant with increased Vne. No design changes have to be done to the aircraft.

1.5 Personnel Qualifications
Owner

1.6 Compliance
No time limits

1.7 Manpower
None

1.8 Cost
None

1.9 Mass (weight) data, Center of Gravity
Not affected

1.10 References
2 Procedure / Conduct

2.1 Verification speed range markings on ASI

All aircrafts have been delivered with the suitable analogue ASI. Nevertheless a cross check of the printed speed range markings should be done to ensure compliance with the new manual. When doing this the model of the installed Recovery System has to be considered, as the relevant Vne varies with the Recovery System:

Recovery System BRS 1050: Vne = 276 km/h (149 kts)
Recovery System Junkers High Speed: Vne = 260 km/h (140 kts)
Recovery System Junkers Lightspeed: Vne = 300 km/h (162 kts)
No Recovery System installed: Vne = 300 km/h (162 kts)

Correctness of the printed Vne marking (red line) on the ASI has to be confirmed in the order template for the new manual.

2.2 Exchange Flight- and Maintenance Manual

Using the template in the Appendix, filled in for the appropriate serial number, a revised flight and maintenance manual can be requested.

Upon receipt of the new manual, the old manual has to be destroyed or marked clearly visible as "invalid".

2.3 ASI marking

The temporary red line on the ASI (positioned at 235 km/h) can be removed.
3 Appendix

3.1 Changes to Previous Revision

First issue – no changes.
3.2 **Request for new Flight and Maintenance Manual following CTLS - TA 08-01**

Request can be filed by mail, fax or e-mail to the following address:

Flight Design GmbH  
Sielminger Strasse 65  
70771 L.-Echterdingen  
Fax +49 (0)711 90287-99  
info@flightdesign.com

**Hereby I request as by CTLS - TA 08-01 transmission of a new Flight and Maintenance Manual for my aircraft:**

<table>
<thead>
<tr>
<th>Type:</th>
<th>CT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Model:</td>
<td>CTLS</td>
</tr>
<tr>
<td>Serial Number:</td>
<td>________________</td>
</tr>
<tr>
<td>Installed Recovery System (Manufacturer):</td>
<td>________________</td>
</tr>
<tr>
<td>Yes</td>
<td>No</td>
</tr>
</tbody>
</table>

ASI marking correct
