MC:
A-19-01-06.

Applicable Countries: Not limited

1.2 Concurrent Documents
- none -

1.3 Reason
An electrical short circuit occurred due to damage of the wire insulation that lead to contact of the
wire to the steel part connected to electrical ground.

1.4 Subject
Repair procedure to additional wires protection for aircraft owners.

1.5 Compliance
This Service Bulletin requires immediate action.
Compliance must be shown within the next 10 hours.

▲ Warning: Non-compliance with these instructions could result in further damages,
personal injuries or death.

1.6 Approval
The technical content of this document is approved under the authority of DOA ref.
EASA.21J.416

1.7 Type of Maintenance
Line

1.8 Personnel Qualifications
Aircraft owner, case dependent supported by an aircraft inspector as per national regulations.
1.9 Release to Service
Conduct of this SB must be inspected by an aircraft inspector according to the national applicable regulations for the country of registry of the aircraft.

1.10 Weight and Balance
Not applicable

1.11 References
Not applicable

1.12 Superseded Documents
- none -

1.13 Contact Details
For further information on conduct of this SB, or to report any Safety of Flight or Service Difficulty issues contact your Distributor responsible for your country. Your Distributor can be located via the Flight Design general aviation GmbH website: www.flightdesign.com under “Dealer Location”.

In cases where the local distributor is not known or available contact Flight Design general aviation GmbH directly: customer.care@flightdesign.com

Specific contact in USA:
Flight Design USA
P.O. Box 325 South Woodstock, CT 06267
Tel: 860 963 7272 / Fax: 860 963 7152
Web: www.flightdesignUSA.com
E-Mail: airworthiness@flightdesignUSA.com

In cases where the local distributor is not known or available contact Flight Design general aviation GmbH directly: airworthiness@flightdesign.com.

1.14 Disclaimer
This Service Bulletin has been generated with utmost care. Nevertheless errors and misunderstandings can never be fully excluded. In case of any doubts the applicant of this Service Bulletin is requested to contact Flight Design immediately to clarify the issue.

2 Resources

<td>Return the wires to their original position.</td>
</tr>
<tr>
<td>6</td>
<td>Remove upper cowling.</td>
</tr>
</tbody>
</table>
Wrap fire protection hose around flange and wires. Tighten TY-wraps around flange and wires.
8 Remove the protective film from pyrosil tape. Wind the pyrosil tape around the wires*.

*Installation: Stretch tape during installation using at least a 50% overlap. For best results, use on clean, dry surfaces free from dirt and oil.

9 Install Panel Right section and apper cowling.

---

3.2 Documentation
Conduct of this SB must be logged in the aircraft log book with date and signature of the responsible Person conducting the SB. National regulations have to be considered.

4 Appendix

4.1 Changes to Previous Revision
Original Issue – no changes

4.2 Feedback Template
For further information or of Flight Service Difficulty issues FLIGHT DESIGN general aviation GmbH directly: airworthiness@flightdesign.com or info@flightdesign.com. Flight Design will assist solve any problem with your aircraft.
This form has to be used to coordinate with Flight Design the required spare parts and to communicate the completion of the SB listed in the header of this page.
Submission can be done by mail, Fax or as scanned copy by e-mail to Flight Design GmbH (see header of this page) or to your national Flight Design Distributor who will forward the information for you.

### Information to obtain spare parts

**Aircraft Type:** CT

**Model:** CT__

**Serial Number:**

**Aircraft Owner, Name and Address:**

### Check question 1

Yes [ ] No [ ]

### Check Question 2

Yes [ ] No [ ]

### Confirmation of Completion

Conduct of this SB has been done at the following workshop:

____________________________________________________

**Responsible Mechanic:**

____________________________________________________

**Date:** _________ **Location:** ________________ **Signature:** _______________

### Warning:

As long as the form has not been submitted to Flight Design, this SB is considered not complied-with for the respective aircraft.
